

Anty Boisjoly is back...

...and he's brought his mum

Anty travels to the Riviera to finally have that awkward 'did you murder my father' conversation with his mother, but instead finds himself in the ticklish position of defending her and an innocent elephant against charges of a murder that no one could have committed.

The announced release date for *Reckoning at the Riviera Royale* is November 30th but in keeping with a tradition the origins of which I've long forgotten, the real release date is a day earlier and readers of this intermittent newsletter are the first to know.

Thank you very much for reading Anty Boisjoly's improbable mysteries of impossible murder. I very much hope you enjoy this next instalment which I hope you'll agree includes one of the more original modus operandi yet.

On Kindle, Unlimited and Paperback a day earlier than November 30th
