## ANTY BOISJOLY IS **FREE** AND WAS LAST SEEN HEADING YOUR WAY

THE LATEST ANTY BOISJOLY is a very special entry to the canon. For one thing, it's free to subscribers to this newsletter, and even though the story chronologically (leaving out the absence of any actual logic) follows number 11, *Massacre at Market Middling*, in a manner of speaking this is the Anty Boisjoly origin story.

In *The Case of the Accomplished Accomplice*, Anty applies his talent for unsticking wickets to a clubmate's dubious desire to be in two places at once, wittily but unwittingly becoming an accomplice in a locked-room murder.

Many of the characters, several scenes, and the premise are taken from the rough idea and very early notes for a cosy mystery featuring a Wodehouseian gadabout named Anty Boisjoly and his absent-minded valet called, at the time, Poe.

To get your free copy of *The Case of the Accomplished Accomplice*, just click this link and BookFunnel will handle it from there.

"And here's to the friends who are no longer with us, and were wise enough to leave before we ordered that fifth bottle of Armagnac."

## AUDIO UPDATE

As mentioned in the previous newsletter, response to the pre-purchase plan, proposed by precious patrons, was swift and successful, and we have fully financed the next Anty Boisjoly audiobook; *The False Clue of the Twisted Red Herring's Footprint*.

Owing to Tim Bruce's irresponsibly excessive talent, he's very much in demand, and so production begins promptly on a date soon to be announced.
